- Sunny Kaushik : IMT2021007
- Ricky Ratnani : IMT2021030

Project Domain: “Education Fee Management”

Project Name: “FeeXpert”

Stake holders :-

- Admin
- Students
- Parents

Use Cases :-

Ricky ratnani(IMT2021030) :

- **Receipts** - College will provide receipts for each payment done. After each receipt is issued the respective pending fees and other attributes will be updated accordingly.

Normal flow :

Flow 1 = login by student or parent > View the receipts of already paid fees.

Flow 2 = login by student > select payment mode > pay the fees > College verifies the payment > college issues a receipt for that payment > pending fees for that student is updated.

Error : Actor doesn't exist as a user. The payment is unsuccessful and so the verification fails.

- **Total Fees** - Login by student > display semester wise fees for each year and total fees

Normal flow2 :

Parents and students can view the details of the total fees of each academic year.

Error : Actor doesn't exist as a user.

Dhairya gupta(IMT2021007):

- **Pending Fees** - College or Student can retrieve any pending or overdue fees for a Student using the portal.

Normal Flow: Actor logs in to the portal > Portal Determines If the Actor is student/parent or college

If User = Student/Parent > Can View only His Pending Fees

If User = College Admin > Can View all Students who have Pending Fees

ERRORS: Actor doesn't exist as a user, Student has no pending fees.

- **Scholarships** - The Actors can get the information on any scholarships that are being availed by the student from the college side. Retrieval will depend on if the actor is a student or college administration i.e. student can view only his details while college can view everyone's details.

Normal Flow: Actor logs in to the portal > Portal Determines If the Actor is student/parent or college

If User = Student/Parent > Can view Scholarships He is availing from the College.

If User = College Admin > Can view all Students who avail Scholarship on fees.

ERROR: Actor doesn't exist as a user.

Sunny Kaushik(IMT2021006):

- **Managing and updating Fees Details by Admin** : Updation of fees structure, increment in fees on an yearly basis.

Normal Flow : Access of fee management system > Selection of student for viewing fee details > updating the student record(by issuing signed receipts) > Notifying the user

Errors: Try to update the fees details for the actor which doesn't in the database

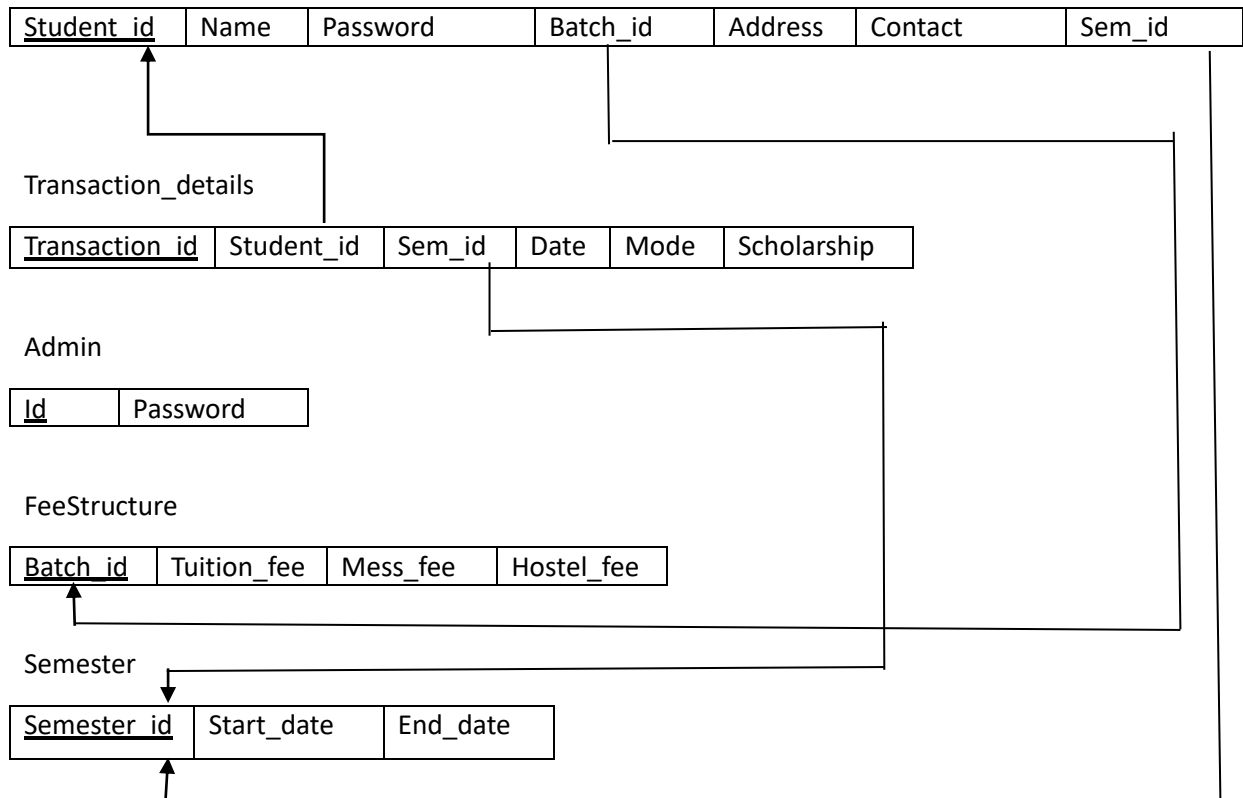

- **Fee Payment** : We will offer a variety of convenient payment methods which the user can choose to pay their fees.

Normal Flow : Selection of payment mode > Authentication of user > Payment details > Payment Confirmation > Updation of student record

Errors:

- 1)The user pays an amount less than or greater than the specified amount.
- 2) Users who have left the institute and his/her account is removed from the database and fees are still pending.
